WOULD LEAD THEM CLEAR

BORAH THE MOSES OF REPUBLICANS?

Idaho Senator Would Reorganize
the Grand Old Party.

TO SPRING INTO ACTION SOON

Scheduled to Deliver a Series of
Speeches in the South, All of Which
Will Be of a Political Character
and Along Progressive Republican
Lines—Senator LaFollette Said To
Be in Sympathy With Movement.

Washington, Jan. 20.—In the discus-
sion that has been going on quietly
here in regard to the reorganization
of the Republican party, Senator Wil-
liam E. Borah of Idaho has been men-
tioned more frequently as the man
about whom the scattered Republican
forces can be rallied. This talk has
become so strong and definite recently
that many Republicans have been
predicting that Senator Borah will be
one of the most prominent candidates
for the Republican nomination in 1916.

If any doubt existed on this point,
it was dissipated when it became
known that Senator Borah is soon to
deliver a series of a dozen speeches
in the south. All of these will be of
a political character. The Idaho sen-
ator also is scheduled to deliver a
speech on Lincoln's birthday, Feb. 12,
before the Union League club of Balti-
more. Senator Borah's friends say
that on that occasion he will express
some views on the reorganization of
the Republican party that undoubtedly
will attract the attention of the en-
tire country. Mr. Borah will follow
up this address with his speaking
tour in the south. Senator Borah is
a Republican of pronounced progres-
sive tendencies, but refused to follow
Colonel Roosevelt in the last cam-
paign.

Although little has been said re-
cently of the movement to reform the
Republican party along progressive
lines, it has been making a rapid ad-
vance under the surface, and in the
opinion of party leaders here soon
will assume formidable proportions.

The new movement contemplates
the temporary elimination of the old
regular leaders in the Republican
party and the putting forward of men
of well-known progressive views.

It has been learned that since the
election much active work has been
going on quietly looking to the re-
organization of the Republican party.

This is particularly true of the states
west of the Mississippi. The informa-
tion that has been received from Penn-
sylvania is particularly encouraging
to the Republicans. Senator Works
has been hearing good reports from
California, while Senators Cummins
and Kenyon of Iowa report that the
third party movement is practically
eliminated in their state. Senator La-
Follette of Wisconsin is in the new
movement.

The reports which the Republican
leaders are receiving from the states
indicate that there is a disposition
among prominent Republicans to get
back into the party organization.

IRISH CATHOLICS' DEMAND

Would Have One of Their Number in
President Wilson's Cabinet.

New York, Jan. 20.—It was made
known that the Irish Catholics of the
country are engaged in a concerted
movement to have one of their num-
ber appointed to President-elect Wil-
son's cabinet. Among those men-
tioned for this honor are: Senator
James A. O'Gorman of New York,
Governor E. F. Dunne of Illinois,
Lieutenant Governor Martin H. Glynn
of New York, Former Governor Fran-
cis W. Higgins of Rhode Island, May-
or John F. Fitzgerald of Boston, Lieut-
enant Governor Walsh of Massachu-
setts, Michael A. Daugherty of Ohio.

Those engaged in the movement
will present their arguments to Gov-
ernor Wilson within a few days at
Trenton.

PUZZLED NOW ABOUT INSULAR POSSESSION

DEMOCRATS TO DROP PHILIPPINE PROGRAM

Taft Would Veto Any Bill Look-
ing to Islands' Independence.

Washington, Jan. 20.—That Demo-
cratic leaders have abandoned their
plan to enact legislation looking to
the independence of the Philippines
at this session of congress, became
known here following President Taft's
speech on the Philippines in New
York.

President Taft's repeated declara-
tions of opposition to the Jones bill
or any similar plan for conferring in-
dependence upon the Filipinos in the
near future have convinced the spon-
sors of the house measure that it
would be useless to pass the measure
at this session.

To pass the Jones bill in both house
and senate at an early date had been
the plan of the Democratic leaders
until very recently. Conferences of
the leaders with President-elect Wil-
son have resulted, however, in consid-
erable uncertainty as to whether the

TO NOW BLOCK OFF COLD CURRENT

RIKER DECLARES IT'S PRACTICABLE

Plans For Artificial Obstruction
of Labrador Current.

COST, LESS THAN \$20,000,000

Engineer Would Stretch Across the
Grand Banks a Great Cable to Ef-
fect the Deposit of All the Heavy
Matter That Is In Movement.
Would Choke Off Current and Give
Free Play to Warm Gulf Stream.

New York, Jan. 20.—Carroll Living-
ston Riker, mechanical engineer, who
prepared the bill for the artificial ob-
struction of the Labrador current
where it meets the gulf stream, which
was introduced into congress by Rep-
resentative Calder of New York, has
written a pamphlet which goes into
particulars as to the ways and means
of such an apparently gigantic under-
taking. His plan, he says, of forming
a large jetty over the Grand Banks
which would choke off the icy waters
of the Labrador current, is at once
practicable and would cost less than
\$20,000,000.

The water above the Grand Banks
is comparatively shallow, Mr. Riker
says. He describes the banks as a
"great plateau or sand bank, practi-
cally level on top, rising from the
great depths of the ocean until there
is only from 200 to 250 feet of water
over it. It is in this shoal water that
there comes the gigantic conflict of
the gulf stream and Labrador cur-
rent.

Mr. Riker says that we must blame
the flow of the Labrador current for
producing our late springs and con-
stant fogs.

Now to choke off this destructive
Labrador current, Mr. Riker says:
"It only remains for man to place an
obstruction that shall maintain a po-
sition a few inches above the con-
stantly rising surface of the material
that is deposited when obstructed, to
effect the deposit of all the heavy
matter that is in movement."

To let the ocean itself build up this
great sandbar from its depths he
would stretch across the banks some
obstructor, such as a great cable that
has been saturated with asphaltum
and weighted with wire or otherwise.
It should have the requisite specific
gravity to cause it to just sink in the
ocean and rest lightly upon the bot-
tom or bed, and having less specific
gravity than the sand or other deposit
it will thereby be prevented from
sinking into or being buried by the
deposit by virtue of its greater buoy-
ancy, it being heavier than the water
but lighter than the sand.

Representative Calder's bill provides
for a commission to inquire into the
feasibility of such a plan. When the
investigations of this commission are
completed, Mr. Riker says that the
carrying out of his scheme would be-
come a matter for international ac-
tion.

measure will be taken up even at the
extra session.

This decision of the Democratic
leaders to postpone consideration of
the Philippine question for a year
will prove a severe blow to the plans
and hopes of the Filipinos themselves.

attention the country over.

GUESTS GATHERING FOR GOULD WEDDING

HERE FOR WEDDING

Anna Gould, the Duke and Others
Arrive From Paris.

New York, Jan. 20.—The Mauretania
had a lot of distinguished folk among
her 276 saloon passengers, a large
number for the season. Anna Gould
the Duchess De Talleyrand, her hus-
band and their little boy, Howard,
Duke De Sagan, are here to attend
the wedding of Helen Gould on Wed-
nesday. The duchess said that her
boy, who is three and a half years
old, was not going to be a page at the
wedding.

Although she is one of the richest
women in America, Miss Helen Gould
will confine the expense of her wed-
ding trossau within \$1,000.

The dimes and quarters which the
enlisted men of the Atlantic squadron
chipped in for something for Miss
Gould have been used to buy a gold
flower bowl. The selection was made
last week by a committee selected
from the crew of the battleship Dela-
ware, now in the Brooklyn navy yard.
Captain Rodman of the Delaware was
the chairman and the others were en-
listed men. The bowl stands about 10
inches in height, is something on the
lines of a loving cup, and has three
handles. The amount contributed by
the men was between \$2,000 and \$3,
000. The railroad men are not hurrying
with their contributions, and
whatever they unite on for Miss
Gould will be sent her after the wed-
ding.

Of All Things!

Princeton, N. J., Jan. 20. — Presi-
dent-elect Wilson, who as governor of
New Jersey is the ex-officio chairman
of the board of trustees of Princeton
university, was refused admittance to
Nassau hall because he had no per-
mit to visit the building. Afterwards
he tried the door, but it was locked,
and he turned away in disgust with
the remark, "There's an ignoramus
over there and a locked door here."

BIGELOW TO BE FLY IN CREAM OF LEGISLATION

A HERO SUCCUMBS TO GRIM REAPER

Brother Dutton, Successor of
Father Damien, Is Dead.

New York, Jan. 20.—The report
which comes by the way of London,
that Brother Ira Barnes Dutton had
died at Molokai, among the Hawaiian
lepers, whom he had nursed for 26
years, caused great sorrow among
thousands who have read the remark-
able story of his life of martyrdom
and brought grief to the heart of Dr.
Prince A. Morrow, a noted dermatol-
ogist of this city, the only man in this
city who ever visited him in his exile.

Ever since Brother Dutton succeed-
ed to the work of Father Damien, fa-
mous as the head of the Hawaii leper
colony, he has written at frequent in-
tervals to Dr. Morrow concerning his
observations of patients under his
care. All were painstaking commu-
nications and contain much informa-
tion, which the physician says has
been of much value in studying the
baffling disease.

The cables said that Brother Dut-
ton had died a leper, but Dr. Morrow
declined to discuss the possibility of
the accuracy of the report.

SHARP CONTEST IN LEGISLATURE

Question of State Militia Fund
Comes Up For Debate.

MAY CHANGE THE PRIMARY LAW

Ohio Election Machinery to Be Made
Over and Party Emblems May Be
Eliminated From Tickets — State
Departments Affecting Agriculture
To Be Reorganized In the Interest
of Economy.

Columbus, O., Jan. 20.—When Rep-
resentative Herbert S. Bigelow to-
night begins the scheduled fight
against the large appropriations made
for the Ohio National Guard, the mil-
itia officers will set up a stirring de-
fense. They will point out that of the
\$500,000 spent by the state on the
militia during the last year, \$200,000
was for armories. These will repre-
sent a large and valuable asset to the
state, since the various municipalities
are donating sites and also bonuses.
Thus the state, while putting up
\$200,000 gets property worth several
times that amount.

The state's election machinery is to
be revamped. Governor Cox, Secre-
tary of State Graves and others con-
ferred today on a plan to change the
primary law, whereby voters casting
ballots for convention delegates may
express first, second and third choice.
It is not unlikely that circles will be
omitted from election ballots, thus

Uncle Sam's Giant Wireless Station Talks 4,000 Miles

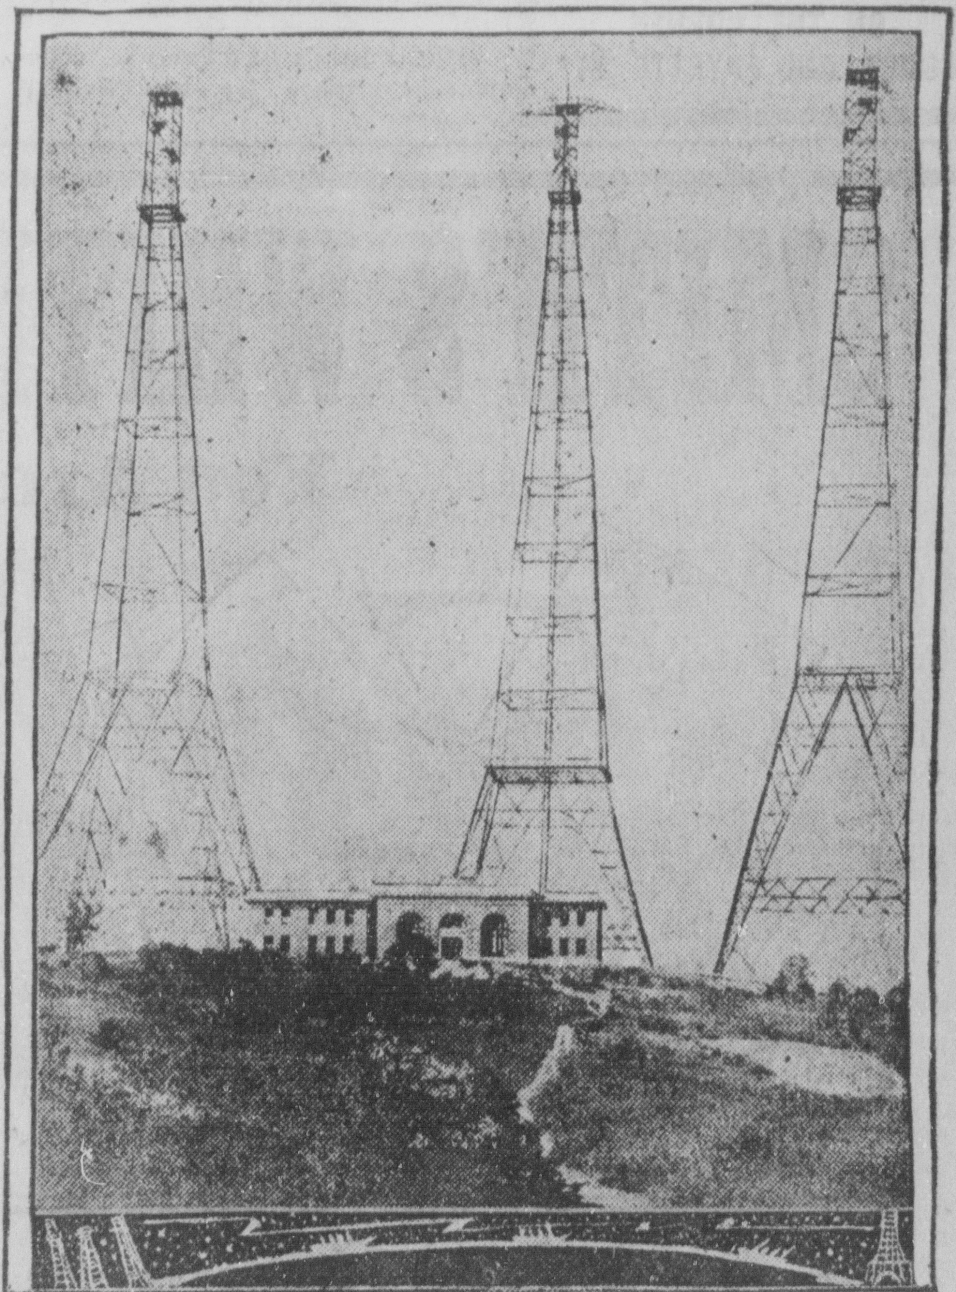

Photo by American Press Association.

SENDING wireless messages 4,000 miles is the latest feat of the new
giant station at Arlington, Va., just across the Potomac from Wash-
ington. New Year's greetings were flashed to the Eiffel tower in
Paris. Uncle Sam's biggest wireless wonder is in charge of Com-
mander W. H. G. Bollard. The station consists of three great steel spires
which catch the air messages and transmit them to the instruments in the
operating rooms below. It seems hardly credible that one can talk by this
means 4,000 miles, but it is so. What this means to the government in time
of peace and war is significant. Jules Verne never thought of such a freak.
It makes his "Twenty Thousand Leagues Under the Sea" look pale.

Bloomington Maroons Defeated By Columbus

Fast and Furious Game on Bloomington Floor Saturday Night Too Much for Maroons and 61 to 9 Score Results—Winners Play Here Saturday Night.

The Bloomington Maroons were defeated by the Columbus Athletics Saturday night in one of the fastest games ever played on the Bloomington floor, and the score at the close stood 61 for Columbus and 9 for the Maroons. A packed house witnessed the game.

The Athletics outclassed the Bloomington team, and the game was entirely one-sided, with a great deal of roughness on both sides. Bloomington started in fast and furious, and Columbus was not slow in following the pace and giving rough plays in return for the knocks of the Maroons.

The referee put three of the Columbus team out of the game, but it is said that equally rough plays on the other side were overlooked, but notwithstanding the game was more one-sided in the last half than in the first, and Columbus scored 36 points to Bloomington's 3.

It was probably the strongest team the Maroons have ever played, and two men of the Athletics are classed with the best in the state.

Summary—Field goals, Jenkins 6; Mahrt, 5; Teol, 5; McMillen, 4; Davis, 2; Snoots, 2; Rees, 5; Solomon, 1; Allemang, 2; Jefferson, 1. Foul

Still Working On Contracts

Messrs. Chas. Sollars and O. T. Grafton, the two men behind the plan to build the Hillsboro to Washington Traction line, are still at work securing contracts from the property owners along the line, and are meeting with success.

Since the roads have become so soft, work has been discontinued for the time being. Just as soon as the roads become dry, they will resume their work.

Already their contracts amount to many thousands of dollars, and those interested in the venture have lost none of their enthusiasm.

The Cincinnati end of the venture, where the union depot and traction terminal is being planned, is becoming more favorable each day, and the two men behind the Washington-to-Hillsboro line are much pleased with the prospects ahead.

Within the next few days they will be in Highland county securing contracts from the property owners along the right-of-way.

Annual Inspection Public Is Invited

Thursday night of this week, the annual inspection of Company M by an officer of the U. S. Army, will take place, and the public is cordially invited to attend the inspection.

Inspection begins at eight o'clock, and Capt. Frank Goedecke will be the inspecting officer.

As this is the most rigid inspection the company is compelled to undergo, every piece of property will be kept in perfect condition. Company M usually passes the examination with honors second to few in the state.

BIRTHDAY SURPRISE.

Mr. S. M. Oliver was given quite a surprise at his home on Clinton avenue Sunday Jan. 19, it being his 41st birthday. Mr. Oliver was told that his sister, of Sabina, was to arrive on the 10:33 B. & O. it being her birthday, to eat dinner with him. He strolled leisurely to the depot at the appointed time, not dreaming of the smiling faces and sumptuous dinner that awaited him. Upon his return home he passed through the dining room, taking no notice of the large table set before him. In the kitchen where the good wife was busily engaged preparing the dinner for the sister and a few others whom Mr. Oliver had invited to dine with him. He asked a few questions as to some buggies hitched at some of the neighbors.

While talking with her the neighbors, relatives and friends who were hid in another room, surrounded him and to say he was surprised does not express it. Those who were present and enjoyed the day were Mr. and Mrs. Sam Oliver and son, Herman, of Bowerville, O.; Mr. and Mrs. Charles Runnels and son Wavel, Mr. and Mrs. Jess Riley and son, James, Mr. and Mrs. Elbert Birch, Mr. John Nelson and daughter, Lela, of Manara; Mr. C. C. Pinbenton, Chillicothe, O.; Mr. and Mrs. Bert Reynolds, of Jasper Mills; Mr. Elmer Cessler, Mr. and Mrs. Harry Reynolds, Bloomington; Mr. and Mrs. Ernest Arbogast; Mr. and Mrs. Newman DeWitt and three children; Mrs. N. D. Fowless and two sons, Doane and Robert; Mrs. Phoebe VanPelt and son, Walter; Mrs. Mary Combs, of Cloverdale; Mrs. Bertha Hill and daughter Pearl, Mrs. Perry Walters.

A good time and sumptuous dinner was enjoyed by all. In the evening Mr. and Mrs. Birch favored the guests with several beautiful hymns, after which the entire crowd joined in singing a familiar hymn.

Bidding Mr. and Mrs. Oliver good night and wishing him many happy returns of the day.

CARD OF THANKS.

Pair Steal Tools Given Light Fines

Two men were placed under arrest Saturday upon an affidavit filed by John Townsley, living south of town, on a charge of larceny, and each escaped with a light fine and a suspended sentence of 30 days in the Xenia works.

The two men had been husking corn for Mr. Townsley, and when they went to receive their check, they went into the barn and tool sheds and carried off a number of tools, including chisels, wrenches, a hammer and other articles.

Mr. Townsley made the check to "Chas. Lockwell" but the fellow afterward gave the name of Brakeman. Soon after the pair left Mr. Townsley discovered that the articles were gone and was soon in his rig in pursuit of the pair, whom he overhauled and marched them into town.

When accused of the theft the fellows produced most of the articles and tried to compromise by returning the check, but failed, and were marched into town accordingly.

M. W. A. CONTEST ENDED.

The recent banquet held by the M. W. A. marked the close of a very unique contest which has been waged the past few weeks.

The contest was for securing new members and also to bring out the old ones. Quite a number of new members were added to the roll.

One of the features of the contest was the wearing of a button, denoting the standing of the wearer, whether a winner or loser, those in the lead wearing a white button bearing the word, "Hustler", those of the losing side bearing the word "Drone". Each meeting night as the standing was announced by the captains, the buttons were exchanged or retained by the winners, in accordance with the side registering the highest number of points at the close of the meeting.

AMIFRENCH
The latest creation in UNDERMUSLINS

With much pleasure we invite you to visit our Muslin Underwear Section and see the most unique style in under garments ever produced in our own country.

No doubt, upon looking them over carefully, you will at once come to the conclusion that they are the real genuine hand-embroidered lingerie. In fact, the most critical and experienced underwear buyers throughout the country have been of the same opinion, until convinced to the contrary, after which, they could not conceive how such magnificent merchandise could be produced by machine.

The workmanship is of decidedly high class tailoring, all garments being finished with French seams, using the very best materials, namely: nainsooks and long-cloths exclusively.

The embroidery work is exceedingly rich and original in designs, executed by experts.

By all means see these beautiful goods.

SYSTEM ON PENNSY

Deputy Sheriff A. C. Nelson is moving from West Lancaster to 507 South North street.

Mrs. James Gibney, of Des Moines, Ia., is the guest of her cousin, Mrs. Humphrey Jones in Bloomingburg.

Miss Donna Stone, of Chillicothe, is making her home with Mrs. Otto Henry, while taking a course at the Stinson Conservatory.

Mr. and Mrs. Martin Junk and daughter, Miss Etta, of Austin, were the Sunday guests of Mr. and Mrs. Walter Jones (nee Ida Junk).

Mrs. William Harrison and daughter, Miss Pauline, returned to their home in Piqua Monday after a visit with Mrs. Josephine Kerr and family.

Mr. and Mrs. Stephen Garringer, daughter Miss Del and son, Leo, of the Good Hope pike, were the Sunday guests of Mr. Frank Garringer and family.

Mr. and Mrs. Ed M. Tharp and baby came down from Columbus Saturday night to spend Sunday with Mr. Tharp's parents, Mr. and Mrs. W. A. Tharp.

Miss Nell Taylor, the guest of Mrs. Mary Arehart and family, returned to Greenfield Monday and leaves with her family in a few days for their new home in Amarilla, Texas.

Dr. G. W. Blakeley returned from Columbus Monday morning, leaving Mrs. Blakeley at Grant hospital with her mother, Mrs. Lucy Pruden. Many friends will be glad to learn that Dr. Baldwin considers that Mrs. Blakeley is getting along nicely.

Mr. Darrell Patton, who has been visiting with his family at the home of his father, Judge A. C. Patton, left Sunday for Jeannette, Pa., where he has accepted a good position in a large rubber tire manufacturing plant. Mr. Patton gave up the position he had accepted in Sweden, owing to the distance from home.

As a safeguard against wrecks such as occurred on the east end of the Zanesville division of the Pennsylvania railroad (C. A. & C.) the block system is being installed on the road between Trinway and Breman, and within a reasonable length of time it is expected that the new system will be installed on the road at this point, and the block system used on the entire division.

Material for the new system is already on the grounds and workmen are at work arranging the system between Trinway and Breman, so that when it is in working order there will be no more wrecks like the one near Dresden where a half score of persons met death.

With the block system as a safeguard, there is absolutely no danger of two trains crashing, as one train is not allowed to enter a block while another train is within the zone.

DEATHS

HARGRAVE.

Jeremiah Hargrave, aged 76, died Sunday morning at 3:15 at his residence on Fourth street. Funeral Tuesday at 2 p. m. at the residence. Burial in Washington cemetery.

HENDRICH.

Eva Magdalena Hendrich, daughter of Peter and Maddelana Hendrich, died Monday morning at 10:30 at the home of her father on the Chillicothe pike. Funeral arrangements will be announced later.

Higher prices for tin have led to the extensive use of aluminum foil for wrapping tobacco in England.

Section of Wall
Takes Tumble

A section of the wall of the Bloomingburg K. of P. building fell during the recent rainy weather, and a gap some 15 feet long and 2 1-2 feet deep was left in the wall where the brick and mortar had tumbled out.

The rains and freezing caused the wall to fall, as in the case of the Hunt building in this city.

Within a short time the Bloomingburg building will be ready for occupancy.

CONTRA.

Our good friend, J. M. Hartman, superintendent of the Union township schools did not gather from the editorial appearing some weeks ago in The Herald the impression which was sought to be conveyed and it is not claimed that the blame, in that regard, rests with Mr. Hartman.

The Herald is glad to have Mr. Hartman's views on such an important subject as the country schools because, in addition to his natural ability, Mr. Hartman has had a wide experience in school work and is now actively connected with the country schools. Therefore his views and his opinions are entitled to be received and considered seriously.

It was not the intention of The Herald to belittle the country schools or to attract pupils from the country schools to the city schools.

The intention, no matter how lamely it was expressed, was just the contrary.

The country schools should be built up and maintained and not necessarily by centralization either, to the same standard of efficiency which is enjoyed by the city schools.

The Herald entertains and has always entertained the greatest respect for the school teachers, especially the country school teachers—they are an army of patriotic soldiers—the good results of whose work cannot be overestimated.

These good disciplinarians and tacticians take the American recruits when they are still at a tender age and turn out on life's battlefield a conquering army of men and women.

The Herald insisted before and insists now that the country school teachers are not receiving a remuneration equal to the value of their services rendered.

With all due respect to Mr. Hartman's views it seems that the only way to check the tendency to leave the country schools and come to the city schools is to raise the efficiency of the country schools by paying larger salaries to teachers and providing better school facilities.

The country schools are all right as far as they go, but they have stopped on the turn while the city schools are going forward by leaps and bounds. No criticism of the work done under existing conditions is intended; it is simply asserted that conditions be improved so that the standard may be advanced and the drift checked.

Lives Sacrificed In Quest of Almighty Dollar

By HARVEY W. WILEY,
Pure Food Expert

ALTHOUGH life is the greatest wealth in this country, thousands EXCHANGE IT IN THE CHASE FOR THE DOLLAR, which they must give up when they surrender the life which they sacrificed to get the dollar.

FOOD ADULTERATION does more to lower the expectation of life than any other cause. It has placed the average life of man at forty-four years, when we all know that at the age of forty he has just completed his education and that man or woman does not reach the maximum of service to humanity until after the age of sixty.

FIFTY-TWO PER CENT OF ALL THE DISEASES WHICH CUT SHORT HUMAN LIFE IS DUE TO IMPURE FOODS.

Should I ask you what is your greatest industry I know most of you would answer correctly. It is EATING. In sixty years we spend five years at the table. The average man or woman spends twenty years of sixty preparing the food and clearing away the table. Another twenty years of the sixty are spent in sleep, which is a part of eating, as it is the NUTRITION WHICH KEEPS US ALIVE.

Thus forty-five of the sixty years are occupied in eating. When adulterated foods are eaten eighteen hours of every twenty-four IS THERE ANY WONDER THAT WE DIE before we should?

THE CHASE AFTER THE DOLLAR IS RESPONSIBLE FOR FOOD ADULTERATIONS. EVERY PERSON WHO DEBASES A FOOD PRODUCT WHICH A POOR MAN HAS TO BUY IS NOT ONLY DISHONEST, BUT HE IS A CRIMINAL, A MURDERER. WHAT THIS COUNTRY WANTS IS BETTER FOOD AT LOWER PRICES, NOT WORSE FOOD AT HIGHER PRICES.

There are 10,000 whom food adulterations benefit and 99,990,000 in this country who suffer. The smaller number represents the millionaires and billionaires who adulterate the foods, and the other is the poorer class which buys them.

No mother should neglect to teach her daughters how to cook.

Poetry For Today

HOME RULE.

O Paddy dear, and did you hear the news that's going round?
The Shamrock's got to have a spot to grow on Irish ground!

Too long in the dark have you lain,
O mother in green and in white!
The centuries' penance of pain
Has made a perpetual night.
But now, as you shatter your chain
O mother, the light!

And soon St. Patrick's Day we'll keep;
Its colors will be seen,
For Irish law will find no flaw in wearing of the green.

Your eyes were the windows of stars
Till curtains of terror were drawn;
They wept at the Sassenach scars
Red-angry on Shemus and Shaun.
Shaun.
But now, as you pluck at your bars,
O mother, the dawn!

I met with Napper Tandy's ghost; it took me by the hand.
I said, "How is old Ireland now?"
"Me boy, she's feeling grand!"

Aye! mother and sweetheart and Queen,
The foolish believed you would die;
But from your lost garden of green
Came breath that no jailer could buy.
And lo! in your eyes shall be seen,
O mother, the sky!

The ancient color soon will flaunt upon the old caubeen,
And, glory be! old ghosts will see the wearing of the green!

GOVERNMENT TO PAY BY CHECK

Old System of Subtreasury Warrants to Be Dropped.

PENSIONERS WILL BENEFIT.

Escape Payment of Exchange—How the Change Will Be of Benefit to the Banking World—New Order Goes Into Effect on Feb. 1.

Washington.—Secretary of the Treasury MacVeagh has decided to put into effect on Feb. 1 a new system relating to the receipts and disbursements of the government. The importance of the proposed changes may be grasped when it is understood that the government collects and disburses more than \$700,000,000 a year. Under the present system checks are received from those who pay their customs dues or internal revenue taxes. These checks are cashed and deposited immediately in the subtreasuries.

The law has been interpreted to prohibit a disbursing officer of the government from having an account with a

THE SUBTREASURY BUILDING IN NEW YORK

bank in a subtreasury city. He must have his account with the subtreasury. In practice this means that the income of the government must be turned into actual currency—which is the only deposit an assistant treasurer can receive—and then paid in cash from the subtreasury to the creditors of the government.

By the new system all instead of only a part of the income of the government will be received by the banks in the form of checks. The payments of the government will be made by checks drawn by disbursing officers on the treasurer of the United States, payable at any national bank depository and charged to the treasurer. In operation the daily receipts and disbursements of the government will be taken care of without actually transmitting into currency the income and paying it out in the same medium.

In order to transact the business of the government in New York city under the present practice it is necessary for the collector of customs to carry to the assistant treasurer at the end of the day the total amount of his receipts, a million or more, in checks. The assistant treasurer puts these checks through the clearing house the next day to obtain currency, the only thing he can deposit. He pays out this currency as required to meet checks of disbursing officers drawn on their accounts held with him.

The receipts from internal revenue are now paid in checks and placed in the banks, which are required to transfer these collections in currency to the subtreasury. The result is that practically the entire income of the government finds its way into the subtreasuries in the form of currency, although the taxpayers pay in the form of checks. When these checks are stopped in the banks and the banks receive authority to pay the checks of disbursing officers as presented and charged to the treasurer the daily business of the government will be transacted without the formal transfer into currency, except as the payees of the government checks demand.

The date, Feb. 1, when the new system will be put in operation, was selected so that it might accord with the new system of payment of pension checks, which under the law is to begin then. Checks in payment of pensions under the proposed system may be collected without the payment of exchange by the pensioner.

The great advantage to the government in the new system will be that the accounts of each of the 3,000 disbursing officers, instead of being scattered among the subtreasuries and the 446 national bank depositories, will be brought together in the office of the treasurer of the United States.

BIGGEST SEA EVER

It Staggered the Mauretania While She Was Fighting a Tempest.

New York, Jan. 20.—The top of a colossal sea that smote the steamer Mauretania while she was bucking one of the worst tempests of the winter Wednesday, staggered her for a moment and awoke most of the passengers. A part of the crest smashed windows in the chart room in the bridge and the solid mass that lifted the heavy teak rail of the promenade deck ripped more than 30 feet of it out. This rail is 65 feet from the ship's water line, but that does not mean the wave was so high, as the Mauretania plunged her nose under it. But it was an extraordinary sea, the biggest Captain Turner ever saw.

THE COLOR OF EGGS.

Testifying as an expert in Washington yesterday, a member of a New York firm declared that the reason Boston preferred eggs with brown shells and New York white shells is a mystery to him. There is really no mystery here. Boston, wishing to preserve the color scheme of its breakfast, insists that its eggs shall harmonize with its beans and brown bread, while every one knows New York demands eggs with white shells as symbolic of the purity of those who eat them.

A Dead Poet Asked to Tea.

All Paris laughed at the Duchesse de Rohan this week when it was discovered that Paul Verlaine, the dead poet, had been invited to attend the latest of her literary teas, which she has been giving the last ten years. The card was sent to the address of Verlaine's publisher, who has lately brought out an edition of his posthumous works. The explanation, it seems, is that Mme. de Rohan intrusted the directing of her invitations to her valet, who took the names of the authors of the newest books sent her as his guide. The duchesse took the blunder very hard at first, but is said now to have quite recovered her equanimity.

Columbus, O., Jan. 20. — Governor Cox was tendered a rousing demonstration when he visited the penitentiary at the time the services in the chapel were being conducted by Evangelist Billy Sunday. The services were stopped when Governor Cox entered the chapel. The governor made an impromptu speech.

Governor Cox referred to the prospect of prison reforms and aroused a storm of applause when he said: "The state doesn't want to mint any dollars out of your tears or those of your families. I know of the family ties that were broken and the tears that were shed when you came here. By helping us you can help yourselves to work out a net return on your day's labor and you can send your wages home to your families and loved ones."

OLIVE TABLETS OIL THE BOWELS

A Physician's Substitute for Dangerous Calomel.

When you feel that your liver and bowels need help take Dr. Edwards' Olive Tablets. Substitute for Calomel. Calomel is effective, but dangerous—causing bad after-effects.

Olive Tablets are especially made to take the place of Calomel. Dr. Edwards for years has been Calomel's foe. He saw its dangers and its disadvantages in 17 years' practice, treating patients for all kinds of liver and bowel complaints. In his efforts to do without Calomel he developed his now famous little olive-oil-colored tablets. Olive Tablets are mild but effective. Safe and sure. Pleasant to take but unfailing in results.

Olive Tablets oil the bowels just enough to start Nature's own action, and they tone up the liver at the same time. They are made from a rare combination of vegetable compounds mixed with olive oil.

If you want to regain that feeling of joyous buoyancy and clear thought take Dr. Edwards' Olive Tablets. They work like a vacation. 10 and 25 cents per box.

GABY DESLYS ROBBED

Seventy Thousand Dollars' Worth of Jewelry Missing.

New York, Jan. 20.—Gaby Deslys, who appears in Brooklyn tonight after an up-state tour, announced that she had been robbed of \$70,000 worth of jewelry. The jewelry disappeared somewhere between Albany and this city. She had most of it in a couple of trunks. The trunks and those of her company were put aboard 10 baggage cars at Albany. Propertyman Sheridan went down to look after the cars of the company. He says that most of the cars had been entered and that the trunks of Gaby and the others had been broken into. On the floor of the car that had her broken trunks in it, Gaby said she found some pearls that the thieves had overlooked and a chinchilla coat that they didn't want, valued at \$5,000.

On the suggestion of Opha Moore, secretary of the Ohio Manufacturers' association, the anti-lobby bill, pending in the assembly, may be changed so that it will be possible for detectives, as in the past, to perform their sleuth work. Becker Has a Ray Of Hope Still Left

JURORS VISITED HOME

One of the Grounds on Which Becker Hopes to Secure New Trial.

New York, Jan. 20.—The fact that Samuel Haas, No. 12 of the jury which tried and convicted Police Lieutenant Charles Becker of the murder of Herman Rosenthal, was seen twice in the neighborhood of his home in Bedford Park at night, during the progress of the trial, is to be one of the grounds for an application to set aside the verdict which sent the man to the death house at Sing Sing.

Joseph A. Shay, attorney of record for Becker, made the foregoing declaration. Haas admitted that he had been in the neighborhood of his home on two different occasions, at night, after the trial was adjourned for the day, but claimed that he was there by permission for the purpose of going to his dentist.

Fights Five; Kills One.

Marietta, O., Jan. 20.—When W. E. Lowe foreman for the Connecting Gas company, was attacked by five foreign linemen, he stood his ground with a pickhandle, fatally injuring one of his assailants and seriously injuring two others. Leon Laboresk, a Russian, one of his victims, is dead.

Stunned by Bolt of Lightning.

Norwalk, O., Jan. 20.—Edward Nagle, an employe of a piano factory at Monroeville, was rendered unconscious by a flash of lightning. Nagle was near an open window when struck. It was nearly an hour before he recovered from the shock.

HINTS FOR HOUSEKEEPERS.

Keep Foley's Honey and Tar Compound always on hand, and you can quickly head off a cold by its prompt use. It contains no opiates, heals and soothes the inflamed air passages, stops the cough, and may save a big doctor's bill. J. P. Higgins, Stanton, Wis., writes that "One bottle of Foley's Honey and Tar Compound cured me of a bad cough. I find it a sure cure for coughs and colds." In a yellow package. Blackmer & Tanquary. Adv

Ministers Raid Gambling Joint

A sensation was created in Xenia Sunday when four detectives, a half dozen students from the U. P. Theological Seminary and three well known ministers raided a gambling room in Xenia and captured eighteen men, all of whom will be tried for gambling.

The three ministers who were in the raid are Rev. C. W. Sullivan, former pastor of the First M. E. church of Cincinnati; Rev. W. H. Hanshue, of the First Lutheran church, and Rev. William Graham.

Hartman Theater

Hartman theater patrons will have a quartet of attractions the week of January 27 that will make the week notable in this season's theatrical events.

Beginning the week the attraction will be Maclyn Arbuckle in Klaw and Erlanger's production of "The Round Up", Edmund Day's interesting drama of Arizona life. The story of the play is a true picture of the cattle ranges of the southwest before the days of the wire fence. The third act presents one of the most thrilling sensations ever seen on the stage—a battle between two white men and a band of marauding Apache Indians in the bad lands on the Mexican border. Twenty-six genuine Indians appear in this act with their war ponies. The company numbers 134 people and 30 horses.

Jolly May Irwin, who probably has created more laughter than any other woman on the American stage will come to the Hartman theater for two performances on January 29, matinee and night. This season sees Miss Irwin in her new play, "Widow by Proxy," which critics say is the best of any of the many plays in which Miss Irwin has appeared. The cast includes Clara Blandick, Orlando Daly, Lynn Pratt, Arthur Bowyer, Dorothy Goldthwaite, Helen Weathersby, Frances Gaunt and Joseph Woodburn.

Following Miss Irwin will come the greatest of all impersonations of women on the stage, Julian Eltinge, who will be the attraction at the Hartman the night of January 30. This will be the last opportunity of Hartman patrons to see Eltinge in the leading role of "The Fascinating Widow," which has made him famous throughout the country, as next year he will appear in another production.

On January 31 and Feb. 1st, with a matinee Saturday, Henrietta Crossman will be at the Hartman in "The Real Thing." This play has been a remarkable success and has been praised wherever it has appeared. "The Real Thing" is popular in theme, more so than any other play Miss Crossman has ever produced and appeals to every one who expects to have a home.

A Clock of 1790.

An interesting specimen of a long clock, made in 1790, is owned by a gentleman at Lutterworth. It has an oval face, a hand which points to the days of the week, completing the round in seven days; one which shows the true dead beat, and another which points to the chimes and quarters.

On the upper part of the clock is a small orchestra, which includes a flute, a cello and two violins, and a boy and girl in addition to three singers. The hours and the quarters are struck and every three hours a tune is played "three times over either on the bells alone, the lyricord or on both together," while the three figures beat time and the boy and girl dance to the music.—Westminster Gazette.

How Perfume Is Weighed.

It was the Italian physician Sabroni who devised a microbalance of such extreme delicacy that it clearly demonstrated the loss of weight of musk by volatilization. Thus the invisible perfume floating off in the air is indirectly weighed.

The essential part of the apparatus is a very thin thread of glass, fixed at one end and extended horizontally. The microscopic objects to be weighed are placed upon the glass thread near its free end, and the amount of flexure produced is observed with a microscope magnifying one hundred diameters.

A mote weighing one-thousandth of a milligramme is said perceptibly to bend the thread.

SECOND BARGAIN DAY!

FOR THE CITY SUBSCRIBERS OF THE DAILY HERALD

As this is the last month in which we will receive subscriptions to the Herald by mail outside of town at reduced rates, we have decided to again give the residents of the city of Washington an opportunity to save money by paying in advance. With this idea in view

We Have Set Aside One Day MONDAY, JAN. 27.,

WHEN WE WILL RECEIVE SUBSCRIPTIONS TO THE HERALD SIX MONTHS FOR \$2.10 OPEN TO NEW OR OLD SUBSCRIBERS

THIS IS A SAVING OF 50c, as the regular price of the Herald delivered by carrier for 6 months is \$2.60.

Those who wish to avail themselves of this OPPORTUNITY TO SAVE 20%, are welcome to do so, but it must be distinctly understood that NO PAYMENTS AT THIS RATE WILL BE ACCEPTED FROM ANY PERSON AFTER JANUARY 27 AT 9 O'CLOCK P. M.

We will, however, accept and credit remittances sent by mail on Jan. 27th too late to reach us, providing such letters bear the post mark of Jan. 27th and reach us on the morning of Jan.

IF YOU WANT TO SAVE 20 PER CENT. REMEMBER THE DATE

Address All Communications and Make All Checks Payable To The Herald Publishing Co.. Washington C. H., Ohio

28, 1913. All remittances received later will be returned.

PERSONS WHO DESIRE TO PAY earlier than Jan. 27, need not wait until that date, but CAN PAY UP TO JANUARY 27 and then add SIX MONTHS IN ADVANCE AT THE BARGAIN RATE at any time between now and January 27th.

Those who wish to pay for one year in advance from Jan. 27, 1913, may do so at double the Bargain Rate offered for 6 months, which will \$4.20, but no subscription for a longer period than one year will be received at less than the regular price of \$5.00 in advance.

RUN-DOWN PEOPLE

Made Strong by Vinol.

Run-down conditions are caused by overwork, worry, too close confinement, a chronic cough or cold which it is difficult to cure.

We want to say to every person in this condition—you need Vinol, our delicious cod liver and iron tonic without oil, the great strength creator. It will supply iron to the blood in the most easily assimilated form, create healthy appetite, strengthen your digestive organs and make you eat better, sleep better and feel better.

A case has just come to our attention from West Scranton, Pa., Mrs. Chas. Proper says: "For three years I was all run-down, weak and had no appetite and after all that time I am glad to say Vinol has brought back my health and strength which is just what I was told it would do."

We are confident that Vinol is the best body builder and strength creator we have ever sold. Try a bottle on our guarantee to refund your money if it fails to benefit you. Blackmer & Tanguary, Druggists, Washington C. H., Ohio.

PUNISHMENT THAT FRIGHTENS.

Murderers are primitive men. Only primitive punishment can frighten such. The aim of murder law ought to be, first, to prevent the murderer murdering somebody else; second, to prevent others from committing murder. Reform of murderers is no aim of sound law. Murder, like blood, runs in families. And such breeds should be ended as soon as possible. Hanging is most merciful, because it saves most innocent lives, and makes executions fewer and fewer.

WONDERLAND

Objected To Losing Booze

Joe Mitchell, of Bloomingburg, who has been arrested quite a number of times during his thirty years, was "pinched" by Patrolman Bell Saturday night, on a charge of intoxication, and landed in the cooler.

While searching him Bell attempted to remove a pint bottle of whiskey from Mitchell's pocket, when Mitchell said that he did not allow any man to take his whiskey away from him, and struck the officer a vicious blow.

Patrolman Bell came back at his man with a blow that sent him to the floor, begging for a doctor to take care of him.

When arraigned upon a charge of intoxication, he was given the usual fine of \$5 and the costs.

Mitchell is a well known character, but has not been in trouble for some little time until he stubbed his toe Saturday night.

California now ranks first among all the states west of the Mississippi river in the value of its mineral productions.

Moving Picture Machines to Help Them Sell Goods.

To bring a machine to the buyer's office and to show it in action without the noise and grime of the factory is virtually what is suggested by an Indianapolis company. The company manufactures a motion picture machine of a size fitting into a salesman's travelling case.

In addition to enabling the salesman to enter a prospect's office and give a demonstration of the machine in operation, says the Iron Age, films may be shipped to prospective buyers when it may not be necessary to send the entire machine. Then the film can be shown at the regular motion picture institution of the neighborhood at little cost.

The picture machine is equipped with an attachment for showing single slides, which of course may be colored or may be reproductions of drawings to elucidate features of the design not conveniently explained with motion picture. Of course with a motion picture machine the reels may be stopped at any point and a definite operation studied with care.

The possibilities of the application of the motion picture machine are of course great and it is interesting to add that the company has had such a degree of success in introducing the machine that it expects to have a plant of double present capacity for turning out films, slides and picture machines.

Shoplifter in Harem Skirt.

Mlle. Louise Chauvel, who dwells in the Avenue du Maine must have been ill advised regarding the harem skirt before she entered a large store department. She evidently forgot that the detectives there, like everybody else, could not but watch her neat and easy steps. They did so to some purpose, for the various articles she slipped into the capacious "bags" she was wearing betrayed her by their bulging.

Mlle. Louise slept that night at the Depot as the consequence, for when arrested her "pockets" were found to contain thirty-seven objects which she is alleged to have obtained without payment.

Rat-Proof Brooder.

Chickens have many enemies and are helpless from most of them. They are in danger from hawks by day and from rats and vermin at night, and the wonder is that the mortality rate is not higher than it is. An Illinois man has invented a metal brooder coop that should help keep this rate down, for it is proof against almost all things that fly, run or creep.

He was proprietor of the Carson House in Chillicothe for several years. He will move to Blanchester next week.

RESPONSIBILITY DISCLAIMED.

The increase in the cost of living is an economic mystery. Everybody disclaims the responsibility for it. The Secretary of Agriculture insists that the farmers have received no undue share of the increase, while wholesale and retail dealers protest that their average profits are no greater than they were three years ago. Consequently neither the producers nor the distributors of foodstuffs are to blame for the greatly increased cost to consumers, the fault may rest with the carriers; yet there has been no advance in freight rates sufficient to account for the general rise in retail prices.

FEWER PRISONS IN IRELAND.

Kilmainham Prison is no more. Runs 2100 Feet On the Ties

The Pennsylvania Manhattan limited left the track near Cedarville a day or two ago, and ran 2100 feet on the ties, crossing a bridge some 25 feet in height in the course of its tie-cutting expedition, but strange to say all of the coaches remained on the road-bed and no damage was done.

The long train, pulled by two engines, was dashing along at 60 miles an hour when the accident occurred, and how a fearful wreck was averted the trainmen are unable to decide. In crossing the high bridge, every tie on the structure was cut and torn out.

By careful work the trucks were replaced on the rails and the train changed to the west-bound track, and the journey was resumed.

Fast Horse Drops Dead

"Robert K", Greene county's fastest horse, owned by R. S. Kingsbury of that county, dropped dead Saturday on the Cliff Todd farm near Cincinnati where he has been kept this winter.

Robert K is said to be the best trotter ever sent out of Greene county, and last season was raced on the Grand Circuit and had a very successful season. The horse had a mark of 2:10 1-2 and negotiations were on foot to sell the animal.

To Shave With a Smile—First Properly Massaged Beard

THE NEVER FAIL RUBBER SHAVING MASSAGE BRUSH gives the finishing touches to shaving preliminaries—adds to shaving that which has always been missing. It is included in the SHAVING OUTFITS PRESENTED TO OUR READERS in this special distribution campaign.

S-I-X C-O-U-P-O-N-S

+ \$1.49 Nominal Expense Fee

= Choice of

Combination "A" or Combination "B" Including this Effective Shaving Accessory

Let "200 Little Fingers" Soften Your Beard—Do Your Massaging: A Greater Delight Than Ever

The Never Fail Rubber Brush is just the right softness in texture to work effectively and give desired results. It is made of the best grade red rubber, soft and pliable, with tapering, flat ended rubber teeth. Substantial nickel-plated handle. To use the brush, first the lather is applied to face, then a thorough massaging—only requires a minute—of the skin. The flat ended teeth remove dead cuticle, foreign substance, cleanse pores. Apply more lather to the face, and the shave of a lifetime is in store for you. The Brush will not irritate or scratch the most delicate skin, instead will promote a healthy circulation, develop facial muscles, and make the skin firm. No breaking out after shaving—the skin is clear, possesses a truly healthy glow.

Milady's toilet set is incomplete without the Never Fail Rubber Brush. It acts the nerves a tingling—blood a dashing—rounds out any part of the body and face. Removes wrinkles, lines and for general massaging is to a mighty satisfactory degree effective.

DR. J. H. LANDIS

Health Officer of Cincinnati
Advocates Establishing a State
Division to Fight Tuberculosis.

SOLONS FAVOR PLAN

Think State Should Take Hand in Fight on Tuberculosis.

Members of the legislature in different sections of the state have joined with prominent physicians and social workers in boosting the plan of the Ohio Society for the Prevention of Tuberculosis to establish a state division of tuberculosis under the direction of the state board of health. When Dr. R. H. Bishop, Jr., of Cleveland and Dr. R. G. Paterson of Columbus put the matter up to Mr. Cox the governor, also, showed them that he was well informed on matters of public health. Armed with a recommendation from Mayor Baker of Cleveland, they visited the governor before his inauguration prepared to argue the question. They found Mr. Cox was already familiar with it, and heartily in favor of the plan.

Members of the Cleveland delegation lined up enthusiastically. "The scheme presented by the society is comprehensive and I will support it enthusiastically," Representative Herman Fellingner told a representative of the Cleveland Plain Dealer.

"The plan would bring quicker and more effective results in many ways because of the state's power and resources, and I will most assuredly vote for the bill," declared Carl D. Freiborn.

When Senator John L. McDermott of Trumbull county heard of the plan he immediately sent Secretary Paterson a letter endorsing it.

Other senators and representatives have expressed themselves to agents of the local anti-tuberculosis societies and to the newspapers as being in favor of the bill.

STATE SHOULD FIGHT GREAT WHITE PLAGUE

DR. JOHN H. LOWMAN.
Cleveland Physician, Noted Authority on Tuberculosis and Former President Ohio Society for the Prevention of Tuberculosis.

Dr. Lowman, who has long been a leader in the volunteer fight waged against tuberculosis, advocates the creation of a special division under the State Board of Health to fight the disease which kills 7,000 Ohioans annually. In a recent pamphlet he says: "There is a place for large measures in Ohio. It has been often observed by those who have studied the situation here that the sympathy between private, municipal and state health commissioners is very close, and all that is needed to unify them in one organic system that would be effective in preventing and curing tuberculosis, is aggressive action by constitutional leadership."

FRENCH SOLDIER'S RESOURCE IS GREAT

One Point in Which He Excels
German Rival, According to
British Writer

NEAREST THE IDEAL FIGHTER

He Knows How to Shift for Himself and is Full of Little Tricks for Increasing His Comfort—Cheerful Under Difficulties.

Comparing the French and German soldier, a correspondent of the United Service Gazette says that where the French soldier excels the German soldier is in his resourcefulness. He knows how to shift for himself, and is full of little tricks for increasing his comfort, of which the more stolid German has no idea. For instance, the speed with which a French regiment will bet its coffee ready on the maneuver ground looks something like legerdemain. This correspondent has been with the French troops when it has rained for three days unceasingly, and when there was not a piece of dry wood for ten kilometers around. Yet within a quarter of an hour of the gales sounding the halt the fires were lit and the coffee was boiling. Give a French soldier a piece of meat and a handful of potatoes and he will turn out a "rata" which cannot be beaten anywhere. As, according to the Napoleonic dictum, "an army marches on its belly," this is a trump card in the hands of the French soldiery, concludes the writer.

The French infantry soldier is probably as near the ideal soldier as one can find. He has a cheerfulness under difficulties, and an endless amount of resource. Anyone who sees the bluecoated, red-trousered "pioupiou" lounging about the French garrison towns with his hands up to his elbows in his trousers pockets has considerable difficulty in believing in his qualities; but if one should meet the same soldier at maneuvers, stepping out with the short, springy step of the French infantry, with his fifty-six pounds of baggage on his back, he would not know him again. With his great coat buttoned back to give free play to his legs, his trousers strapped into his long godelots, his face burned to the color of chocolate by the blazing sun, and his uniform gray from the dust of the roads, he looks every inch a soldier. But it is his extraordinary marching powers that astound the spectator. A French regiment covers the ground at wonderful speed, and never seems to tire. Fifty kilometers a day are at times covered by French infantry, and marches of seventy and more are occasionally done. The "Chasseurs a pied," the famous "vitrriers," are unique among the armies of Europe. What they can accomplish in the way of marching no other troops can pretend to equal. The Kaiser's sturdy infantry soldier tramps on mile after mile with dogged perseverance, but without the wonderful, elastic, springy step of the "pioupiou." The marching pace of the Germans is at least 10 per cent. slower than that of the French, which, at a critical moment, would be of enormous importance.

Col. Gaedke, the German military critic, who watched the recent maneuvers in the Valley of the Loire, has warned his countrymen not to hold lightly the soldiers of France. After closely observing them in the field, in garrison and barracks, he has arrived at the conclusion—German that he is—that man for man Germany has nothing better to put against them. Col. Gaedke, says the London Army and Navy Gazette, is unconsciously a missionary of peace, since if he succeeded in convincing the Germans, especially those highly placed, whose advice may any day determine whether there shall be peace or war, that the experiences of 1870, when hopelessly incompetent leaders mishandled a distrustful and demoralized army, afford no trustworthy guidance as to the issue of a struggle with a purged French army, having at its head the best brains of the country, there will be less chance of another Franco-German war being precipitated.—Army and Navy Journal.

Ancient Skeptics.

The Sophists were a body of teachers in ancient Athens during the fourth and fifth centuries B. C., who gave instruction in any or all of the higher branches of learning. Although they were not a philosophic sect, and held no doctrines in common, the Sophists were, nevertheless, skeptics, and maintained a belief in the uncertainty of all particular knowledge, and, in fact, in the impossibility of all truth. Their two leading representatives were Protagoras and Gorgias. The Sophists were charged with bringing reasoning into contempt by casting uncertainty over the most obvious truths, and, in consequence, were ridiculed by many.

New Chair in Rome University.

A chair in Christian archaeology has been established in the University of Rome by direction of the minister of education, and Prof. Marucci has been appointed as its first occupant. "Marucci, whose entry into the faculty has created much excitement in church circles, is known as the best informed archaeologist of the Vatican," says Figaro, "and the only surviving pupil of Rossi, who made the catacombs a life study."

FAMOUS LAUNCH IN CASE.

In Seattle Captain Johnson May Gloat to His Heart's Content.

The steamer Mackinaw sailed from Nome, Alaska, with the famous launch Eagle aboard. The Eagle was taken to Seattle and put in a glass case, where the public may gaze to its heart's content, and Capt. E. W. Johnson may gloat over Josh R. McIntyre.

The launch was the cause of the long-drawn-out suit between Johnson and McIntyre for the possession of the famous Copper Gulch Mine No. 2, which Johnson finally won in court. Johnson and McIntyre engaged in the lightening business at Nome back in the days of the gold rush, and shipped a launch from Tacoma to do the work. The business did not pay, and the launch was beached. After lying on the beach for a year, Johnson took out the engines and placed them into other boats. In the course of time he traded one of the boats for a supposedly worthless claim. This claim is now the Copper Gulch No. 8, which produced \$1,500,000, and showed no signs of stopping.

When the mine turned out to be a bonanza, McIntyre sued for a half interest, on the strength of his old interest in the launch sent from Tacoma.—Seattle Star.

One Way of Doing Business.

Billy Emerson, the minstrel, took a company of black-face artists to Australia in the old days, and had hard luck. On the way back he landed at Shanghai and gave a show.

Emerson saw there was a good house. "Doing pretty well," he said to the box-office man.

"Fine," that official replied; "we've got in four hundred dollars in money and fourteen hundred dollars in chits."

"In what?" gasped Emerson.

"In chits."

"What are chits?"

"Why, promises to pay. Everybody uses chits here. Give a chit and settle at the end of the month."

"Do you mean to tell me that you have let fourteen hundred dollars' worth of seats go for them chits, as you call them?"

"Sure. Why not?"

"And those people just signed their names and didn't pay cash?"

In a Minority.

In 1747 John Brown was invited to become the pastor of a church at Hingham. There was but one opponent to his settlement, a man whom Mr. Brown won over by a stroke of good humor. He asked for the grounds of his opposition.

"I like you and your manner," was the reply, "but your preaching, sir, I disapprove."

"Then," said Mr. Brown, "we are agreed. I do not like my preaching very well myself, but how great a folly it is for you and me to set up our opinion against that of the whole parish."

The force of this reasoning appealed to the man, and he at once withdrew his objections.—Cleveland Leader.

Separation of the Sexes.

The separation of the sexes seems to have been formerly by no means an uncommon practice in the Church of England. In fact, Edward VI.'s prayerbook specially mentions that at the communion service "the men shall tarry on one side and the women on the other." The papers of a church in Westmoreland include elaborate directions for the division of the sexes at its services. All wedded men were to be placed first before any of the young men, and all young wives were to "forbear and come not at their mother-in-law's forms"—this was presumably before the days of the pew—"as long as their mother-in-law lives."

New English Submarine.

A seven foot sink-or-swim submarine showed good form at a preliminary trial in an English swimming bath. Its propeller shaft can be shifted to right or left, thus steering the boat to port or starboard. On each side is a fin, a curved flexible sheet of alloy. No rubber is needed, as the fins and propeller take its place. By working the fins like a large fish the boat goes down deep or comes up to the surface. The boat is run by electric motors and storage batteries.
